The corporate governance of Meiji Holdings Co., Ltd. (the “Company,” “we,” or “us”) is described below.

1. Basic Views on Corporate Governance, Capital Structure, Corporate Profile and Other Basic Information

1. Basic Views

The Meiji Group's (the “Group”) has created and implements a Group governance structure, which includes our Board of Directors, to promote the realization of medium- and long-term corporate strategy outlined based on our Group Philosophy. The Company is with Audit & Supervisory Board members. The Board of Directors' oversight and Audit & Supervisory Board members' auditing heighten the objectivity and transparency of business management. Our Board of Directors is comprised of diverse directors. The Board deliberates and decides major Group matters, and appropriately monitors to ensure implementation. To improve the efficacy and transparency of the Board of Directors, we have established a system for reflecting the opinions of independent outside directors in management.

On the other hand, concerning business execution, the Company has introduced Chief Officer system to strengthen group management. Serving in the highest positions of responsibility within the Group, Chief Officers supervise and oversee Group business or functions. To promote Group strategy, our Group Strategy Committee, which is comprised of Chief Officers, outlines the direction of important Group matters. Executive Committee, which is chaired by the CEO (Chief Executive Officer) & President, deliberates and decides on important matters concerning strategy implementation, and ensures the rapid and appropriate implementation of operations.

Furthermore, "Corporate Governance Policy", which defines the basic policy regarding corporate governance of the Company, is posted on our website.

[Reasons for Non-compliance with the Principles of the Corporate Governance Code]

Meiji Holdings operates in line with all the principles of the Corporate Governance Code. We disclosed our actions for all the principles in line with the requirements stated in the code prior to its revision in June 2021.

[Disclosure Based on the Principles of the Corporate Governance Code]

- Principle 1.4 Cross-shareholding of Listed Companies

The Group does not hold shares that are not recognized as contributing to sustainable growth and improvement of corporate value over the medium- to long-term, taking into consideration the necessity of business operations.

We hold listed stocks as cross-shareholdings when we think it would:

- 1) Accelerate the group's financial operations
- 2) Strengthen the relationship with our group companies
- 3) Strengthen the group's transactional relationships
- 4) Be reasonable in light of our responsibility to shareholders

Every year, the Board of Directors reviews all the brands the Group is holding and determines whether the company should continue holding them or dispose of them. We will verify the suitability of possession and disclose the details of the verification. For each brand, the Board considers the following factors:

- The rationale for holding the brand
- The transactions for the brand in the past year
- The medium- to long-term outlook for the brand
- The amount of dividend

Following its September 2021 review, the Board of Directors concluded that the Company should continue holding 30 of the brands. Later, from the perspective of reducing strategic cross-shareholding as outlined in the Corporate Governance Code, in FYE March 2022 we sold all shares of one brand and a partially sold eight other brands.

During the period of 2023 Medium-Term Business Plan (from FYE March 2022 to FYE March 2024), we plan to reduce strategic cross-shareholding by 30% based on book value as of the end of March 2021. In FYE March 2022, the first year of 2023 Medium-Term Business Plan, we reduced strategic cross-shareholding by approximately 10% based on book value.

As a rule, we will exercise our voting rights in line with the wishes of the stock issuing company's Board of Directors. However, we will decline to do so if we think that it would negatively impact the business relationships with the Group or if it would clearly harm the common interests of shareholders.

When a company holding Meiji stock for strategic purposes (cross-shareholding company) indicates the intention to sell the stock, we do not interfere with the sale of the stock.

We do not engage in transactions that would interfere with Group and shareholder common interests, including engaging in transactions with cross-shareholding companies without sufficiently validating the economic feasibility of the transaction.

- Principle 1.7 Related Party Transactions

Directors and Audit & Supervisory Board members of the Company or a major operating company may not engage in material transactions with the Company or a major operating company without the approval of the Company's Board of Directors. Where such transactions are approved, the status of said transactions must be reported to the Company's Board of Directors.

- Principle 2.3 Sustainability issues such as social and environmental issues

As Food and Health professionals, we contribute to addressing social issues through our business activities, and to realizing a sustainable society for people to live healthy, and peaceful lives. We aim to achieve sustainable growth and increase corporate value over the medium- to long-term. The Board of Directors makes decisions on the Group's long-term vision and medium-term business plan following deliberations by with internal entities, including the Group Strategy Committee, Executive Committee, and Group Sustainability Committee.

The Meiji Group Sustainability 2026 Vision upholds three main themes: Healthier Lives, Caring for the Earth, and Thriving Communities, as well as the shared theme of Sustainable Sourcing. We are identifying Materiality and setting out KPIs (Key Performance Indicators) for each theme. Each Materiality and KPIs are in this report. It is described in "3. Implementation of Measures for Shareholders and Other Stakeholders 3. Measures to Ensure Due Respect for Stakeholders".

- Principle 2.4 Ensure Diversity including Promoting Women's Workplace Advancement

Our Group has achieved growth by being a part of the everyday lives of a diverse range of customers, from infants to the elderly, who are in various life stages and embrace a diverse range of values. Our ability to connect with our customers is one of our greatest strengths, and we will continue finding ways to meet the needs from our customers in Japan and around the world in the areas of food and health. To fulfill this mission, it is critical that Meiji personnel can maximize their individual potential and their respective workplaces. Our human resources include people of various genders, sexual orientations and gender self-identification, career backgrounds, ages, nationalities, disability, employment types, and family structures. We believe that innovation and new value creation achieved through the mingling of diverse perspectives, knowledge, and capabilities are critical forces that will drive future corporate growth.

Based on this approach, our Group will work to improve our sustainable corporate competitiveness by creating a diversity & inclusion promotion structure and implementing various measures. To ensure the efficacy of this structure, we will set numerical benchmarks for core personnel hiring and other targets, hire and train diverse personnel, and ensure the establishment of diverse work environments.

1) Structure for promoting the Meiji Group human resource strategy

In April 2022, we established the Meiji Group Human Capital Committee, which is chaired by CEO. We will serve to maximize human capital, a critical management resource, for the entire Group and to promote human resource strategies aligned with our management strategy. We uphold the

following human resource themes to accelerate initiatives towards not only optimizing business, but also to promote a unified approach by the Group.

- Promote diversity and inclusion
- Promote human resource development from the Group management perspective
- Promote health and productivity management
- Increase employee engagement

The Committee will deliberate these core themes. Based on these themes, we will draft and promote various policies and strategies.

We will aggressively invest in human resources, and link these efforts to increasing our medium- and long-term corporate value.

2) Women's workplace advancement

We support increased awareness regarding career formation among female employees and work to cultivate an organization and workplaces that further enable female employees to exert their skills.

We aim for an environment where the advancement of women as core members of corporate personnel is a given.

[Targets by FYE March 2027]

- Increase the ratio of female managers to over 10%
- Increase the number of female managers to at least 420

[Results as of FYE March 2022]

- Ratio of female managers: 4.7%.
- Number of female managers: 237

3) Advancement of foreign-born personnel

To ensure external competitiveness and promote diversity, we engage in personnel hiring regardless of nationality. To further expand our challenges in global markets and to deliver advanced value in the areas of food and health to customers around the world, we will steadily hire foreign-born personnel for regular positions within our organization. We will increase our ratio of foreign-born employees and help foster those personnel into core members of our Group.

[Result as of FYE March 2022]

- Number of foreign-born managers and employees: 24

4) Advancement for mid-career hires

To ensure external competitiveness and promote diversity, we engage in the hiring of personnel who have gained experience in other companies and other fields. To deliver advanced value in the areas of food and health to customers around the world amid dramatic changes in our operating environment, we will look beyond existing concepts and perspectives by our ratio of mid-career hires and help foster those personnel into core members of our Group.

[Result as of FYE March 2022]

- Ratio of mid-career hires: 25%

5) Personnel development policy

In our efforts to make sustainable improvements in our competitiveness, we believe it is important that employees be highly motivated and enthusiastic in their work. This requires that we support employees with an environment, organization, and culture that enable them to fully exert their potential.

Based on this belief, we created the Meiji Group Human Resources Development Policy. The goal of this Policy is to promote the development of human resources who can maximize their individuality and autonomously take on new challenges. At the same time, we also support and promote flexible workstyles to create an environment that allows employees to maximize their potential throughout the various stages of life.

Meiji Group Human Resources Development Policy

- 1) Develop human resources to exert creativity and expertise, and who possess the challenging spirit needed to win against the world's top companies.
- 2) Develop autonomous human resources capable of linking personal growth to company growth, and who contribute to improving the core competence of the organization.
- 3) Develop human resources who have a deep understanding of our Group Philosophy and who will implement the Meiji way at a high level.

*The above results and targets applies to Meiji Holdings Co., Ltd., Meiji Co., Ltd., Meiji Seika Pharma Co., Ltd. and KM Biologics Co., Ltd.

- Principle 2.6 Roles of Corporate Pension Funds as Asset Owners

Corporate pension funds are managed by the Meiji Group Pension Fund, which was founded by the group's two core companies, Meiji Co., Ltd. and Meiji Seika Pharma Co., Ltd. Decisions concerning the management of these assets are made by three bodies: the Asset Management Committee, the Board of Trustees, and the Board of Representatives. Regarding the membership of these bodies, the fund's operator selects qualified persons from financial/accounting and HR, and elects an equal number of members from among the fund's subscribers by mutual vote. The operator subcontracts the day-to-day management of the assets to a financial organization and monitors its performance, monitoring the results in quarterly meeting.

- Principle 3.1 Full Disclosure
- The Group philosophy and business plans

The Group Philosophy is disclosed on the following website.

<https://www.meiji.com/global/about-meiji/philosophy.html>

The Group Business Plan is disclosed on the following website.

<https://www.meiji.com/global/investors/business-plans/>

- Basic views on corporate governance

The Group's basic stance on corporate governance is disclosed in "1. 1. Basic Views" above.

- Remuneration of directors

The Board of Directors' policies and procedures for determining the remuneration of directors are disclosed in "2.1 [Incentives] and [Director Remuneration]".

- Board policies and procedures in the appointment/dismissal of the senior managers and the nomination of candidates for the Board of directors and the Audit & Supervisory Board

Policies and Procedures for Nominating Director Candidate

Directors select candidates at the Board of Directors after consulting with the Nomination Committee and are appointed at the General Meeting of Shareholders.

Director candidates are chosen considering diversity such as their nationality, gender, or age, and are nominated for their advanced knowledge and expertise in fields needed to realize the Meiji Group Vision 2026. These fields include areas such as management strategy, global business, sales and marketing, finance and accounting, HR and diversity, legal affairs and risk management, corporate communications, and sustainability.

Nominating directors with executive duties

All candidates must have the following qualities:

- Extensive experience
- Specialist expertise
- Business sense
- Upstanding character

Also, we nominate persons who can steer the Group toward sustainable growth based on the past achievement.

To implement our corporate philosophy and promote our corporate value, we look for the following qualities:

- Effective decision-making ability: Transparent bold business decisions swiftly and impartially.
- Group management: Achieve optimal group-wide management.

Nominating independent outside director candidates

We nominate persons with the following qualities:

- Ability to analyze the company's business operations objectively and from multiple perspectives
- Character, insight, and ability to take on the role of an independent outside director

All such candidates must meet our independence standards.

Decisions on the reappointment of directors are subject to substantive deliberations by the Nomination Committee regarding the person's effectiveness in fulfilling their required duties on the Board of Directors.

The removal of a director shall involve appropriate deliberations by the Nomination Committee before a final decision is made by the Board of Directors. The removal of directors is conducted in accordance with provisions stipulated in relevant law.

Nominating Audit & Supervisory Board member candidates

Audit & Supervisory Board members select candidates at the Board of Directors after consulting with the Nomination Committee with the consent of Audit & Supervisory Board. Audit & Supervisory Board Members are appointed at the General Meeting of Shareholders.

While considering diversity such as their nationality, gender, or age, we nominate persons with the following qualities:

- Upstanding character
- Excellent discernment
- Specialist expertise
- High moral standards

For our Audit & Supervisory Board members to properly inspect the Group's operations of the compliance (with laws, regulations, and standards etc.) and validity and to bring any issues to our attention from an objective and impartial perspective.

At least one of the candidates must have solid grounding in finance and accounting.

Of these, outside Audit & Supervisory Board candidates are chosen from among persons who fulfill separately stipulated judgment criteria for independence with vast knowledge and experience in relevant fields such as accounting or law.

In the event of matters requiring the removal of an Audit & Supervisory Board members, the Nomination Committee shall hold appropriate deliberations before a final decision is made by the Board of Directors. The removal of Audit & Supervisory Board members is conducted in accordance with provisions stipulated in relevant law.

- Supplementary Principle 3.1.3 Climate change response

In 2019, our Group declared support for the Task Force on Climate-related Financial Disclosures (TCFD) established by the Financial Stability Board (FSB).

We established the Group TCFD Committee, which is comprised of relevant departments in Meiji Holdings and main subsidiaries Meiji, Meiji Seika Pharma, and KM Biologics. We are advancing initiatives to reflect long-term climate risks and opportunities related to climate change in our business activities.

Climate change information based on the TCFD framework is listed on the following website.

<https://www.meiji.com/global/sustainability/sustainability-management/>

- Supplementary Principle 4.1.1 Scope of Matters Delegated to the Management

The Board of Directors resolves matters of material importance, including the Group's basic strategic approach, large-scale investments, and other matters that are set forth in laws, the Company's Articles of Incorporation, or the Rules of the Board of Directors. The Group Company Administration Regulations and Duties Regulations clearly define the matters that are related to the execution of business undertakings and operations pursuant to the policies determined by the Board

of Directors. Said matters are delegated to management and the status of their execution is reported to the Board of Directors as necessary.

- **Supplementary Principle 4.1.3 Succession plan for the CEO and other top executives**

Our Board of Directors decides on the succession plan for our Group CEO based on consultation with the Nomination Committee. The Board of Directors outlines implementation strategy for a succession plan based on the parameters (leadership values) required of executives. These parameters are outlined based on our Group Philosophy, our Code of Conduct, and business strategy. Based on this implementation strategy, the Nomination Committee deliberates on the nomination and removal of the current CEO of the Company and the CEOs of our main Group companies, and selects CEO candidates. The Board of Directors receives regular reports on the status of the succession plan and deliberates on the details of the plan.

We have established a set of standards (“Leadership Value”) for our executives in January 2018.

Leadership Value and succession plan

In order for Meiji Group executives to lead the Group toward achieving its vision, we believe it is critical for them to “instigate change and lead reform efforts.” We have established a set of standards (“Leadership Value”) for our executives in January 2018. The Leadership Values identify ten leadership qualities from the following three categories:

- Strategic planning and action: Imagination, decisiveness, ability to achieve breakthroughs, ability to channel creative energies
- Organizational leadership skills: Ability to communicate and convince, ability to motivate, magnanimity for others’ mistakes, ability to develop others’ talents
- Character: Ability to recognize and channel diverse talents, upstanding character

The development policy for our succession planning was discussed and decided in the Board meeting in March 2019 as recommended by Nomination Committee. We develop succession roadmaps for future leaders of the Company and major group companies while the Nomination Committee reviews the ways in which we select the future leaders and groom them for leadership.

Implementation

For the nomination and development of successor candidates for the position of CEO for Meiji Holdings and major group companies, we drafted an annual schedule covering procedures from candidate information gathering to Nomination Committee deliberations. In FYE March 2022, the third year of the operation, the Nomination Committee deliberated on three matters in January 2022: 1) The nomination and dismissal of the present post CEO, 2) The nomination of CEO successor candidates, and 3) The nomination of management personnel pool.

In addition, ahead of the deliberation and final decision on the nomination of executive candidates by the Board of Directors, the progress of succession plan in FYE March 2022 was reported and deliberated at the Board of Directors meeting in April 2022.

We work towards making continuous improvements to plan management based on the established succession management cycle.

- Principle 4.9 Independence Standards for Independent Directors

The Company's independence standards for independent directors are stated in "2-1 [Directors] Other Matters related to Independent Directors" of this report.

- Supplementary Principle 4.11.1 Composition of the Board of Directors

The role of the Company's Board of Directors is to formulate and pursue Group-wide strategies, oversee the management of operating companies, and carefully monitor the effectiveness of managers and directors from an independent and objective perspective, with a view to making the Group Philosophy a reality, contributing to the Group's sustainable growth and corporate value over the medium- to long-term, and improving profitability and capital efficiency.

The Board of Directors is comprised in such a way as to fulfill this function. Its membership includes individuals who have the knowledge, experience, and abilities necessary to execute important business operations (e.g., management strategy, global business, sales and marketing, finance and accounting, HR and diversity, legal affairs and risk management, corporate communications, and sustainability etc.) and manage operating companies, and those who can provide broad and objective advice and oversight from a non-executive perspective such as independent outside directors. We also consider the diversity such as their nationality, gender or age. Furthermore, skills matrix of Members of the Board is described in "2. Other Matters Concerning to Corporate Governance System" of this report.

The Board of Directors currently maintains a membership of around 10 individuals. It is composed in such a way as to provide a good mix of knowledge, experience, and skills, and a good balance between those members who execute important business operations or manage operating companies and those who serve a non-executive role. At least one-third of the latter members are independent outside directors.

The Board of Directors currently has nine members, including four independent outside directors (two of whom is a woman).

To improve the efficacy of Board of Directors' meetings, we regularly hold outside officers' conferences for independent outside directors and outside Audit & Supervisory Board members. Attendees exchange opinions and share information from the objective perspectives at these conferences to promote further understanding of our business.

- Supplementary Principle 4.11.2 Independent Outside Officers who Concurrently Serve at Other Companies

The Company permits independent outside officers to concurrently serve as officers in other listed companies, but only to the extent that they are not prevented from devoting sufficient time and effort

required to fulfill their roles and responsibilities as director or Audit & Supervisory Board member of the Company.

Any significant concurrent positions held by directors or Audit & Supervisory Board members are disclosed in the “company’s officers” section of the business reports in convocation notices of ordinary general meetings of shareholders, and they are also included in director candidate information under the relevant agenda item in said notices. Convocation notices of ordinary general meetings of shareholders are also published on the Company website.

<https://www.meiji.com/global/investors/governance/annual-general-meeting/>

- Supplementary Principle 4.11.3 Evaluation of the Board of Directors

Once a year, the Company analyzes and evaluates the effectiveness of the Board of Directors as a whole, taking into consideration the results of surveys on the role and management of the Board of Directors and problems or issues that the Board faces, including a self-evaluation questionnaire submitted by members of the Board of Directors. The Company then takes remedial measures to address any issues highlighted in the surveys. We work to improve the efficacy of the Board of Directors by conducting evaluation by a third-party assessment organization approximately once every three years to evaluate the efficacy of the Board of Directors in a neutral and objective manner.

We use an assessment survey questionnaire to collect feedback from each director and each member of the Audit & Supervisory Board.

This questionnaire includes:

- Assessment in line with our own corporate governance policy
- Assessment of the operation of the Board of Directors
- Progress in achieving challenges from feedback items in the previous year

We are conducting individual meetings between the Chairperson of the Board and independent outside directors. Using a self-assessment survey, these meeting participants discuss how to improve the Board of Directors as well as issues and measures for further improving efficacy.

- Method for analyzing/evaluating how effectively the Board functioned in FYE March 2022

We requested the third-party assessment organization for the primary evaluation of efficacy to analyzed/evaluated how effectively the Board of Directors functioned in FYE March 2022 in line with our own corporate governance policy, which we established in October 2015.

The third-party assessment organization conducted surveys of all directors and Audit & Supervisory Board members on effectiveness evaluation and, based on those results, conducted individual interviews.

This questionnaire includes:

- Roles and functions of the board meeting (setting strategic direction, overseeing company, preparing succession plan, discussing/reporting on business matters)
- Scale and composition of the Board of Directors
- Operating status of the Board of Directors
- Management issues and risks

- Response to issues from the previous evaluation
- Composition, role, and operating status of the Nomination Committee
- Composition, role, and operating status of the Compensation Committee
- Support structure for outside directors
- Role of Audit & Supervisory Board members
- Relation with investors and shareholders
- General effectiveness of governance structure and the Board of Directors
- Self-evaluations of directors and Audit & Supervisory Board members

The questionnaire was created following meetings between the third-party assessment organization and the secretariat of the Board of Directors.

The third-party assessment organization organized opinions gathered via surveys and interviews into an anonymous format. The results of evaluations conducted based on those responses were submitted to the Board of Directors as the primary evaluation results of the third-party assessment organization. The Board of Directors then evaluated and deliberated on those findings, and summarized evaluation results.

- Results of analyzing/evaluating how effectively the Board functioned in FYE March 2022

According to the evaluation by the third-party assessment organization, individual meetings between the Chairperson of the Board and independent outside directors, and board meeting records, the Board is operating effectively. Based on the results of the evaluation by the third-party assessment organization, regarding the initiatives to address issues indicated during the previous evaluation, we confirmed that we are responding appropriately to “increasing discussion by the Board of Directors on the Company’s response to revisions to the Corporate Governance Code”. However, regarding “strengthening monitoring to improve efficacy of the Board of Directors”, we confirmed that there is a room for improvement in certain areas.

During FYE March 2023, we will work towards further improving the efficacy of the Board of Directors and strengthening corporate governance. Issues we recognize as themes for continued improvement efforts include “strengthening monitoring of the specific results and progress status for core issues of the Medium-Term Business Plan”, “using the process of drafting the next Medium-Term Business Plan to expand deliberations by the Board of Directors on medium- and long-term issues”, and “selecting agenda items for the Board of Directors that promote focused deliberations to improve Board management”.

Individual meetings with the Chairperson involved exchanges of opinion related to improving the efficacy of the Board of Directors, including discussion on issues such as “initiatives to stimulate Board deliberations”, “respecting diversity and developing human resources”, “dialogue with investors and shareholders”.

- Supplementary Principle 4.14.2 Training Opportunities for Directors and Audit & Supervisory Board Members

The Company provides directors, Audit & Supervisory Board members, and executive officers with training opportunities as necessary to develop their understanding of their legal liabilities and the roles and responsibilities they are expected to perform with respect to corporate governance, compliance, and risk management, as well as opportunities to gain the necessary knowledge on the Group's business lineup, organizational structure, and financial status.

The Company briefs outside officers on the Group's management strategy and business lineup/status to further their understanding of these matters. In addition, outside officers are taken on inspection tours of plants and research laboratories.

- Principle 5.1 Constructive Dialogue with Shareholders

The Company positively and voluntarily engages with shareholders so as to promote constructive dialogue with them. General communication with shareholders is managed by the Investor Relations (IR) Department, which is managed by the director in charge of IR. The Company pursues the following measures for promoting constructive dialogue with shareholders.

- The Company positively and voluntarily engages with shareholders so as to promote constructive dialogue with them. General communication with shareholders is managed by the IR Department, which is managed by the executive officer in charge of IR. To a practical extent, we also engage in dialogue with directors and Audit & Supervisory Board members, including outside officers.
- With the aim of supporting shareholder dialogue, the director in charge of IR organizes liaison meetings with personnel from other departments, including Corporate Planning, Corporate Administration, and Risk Management, so as to share information between the departments.
- In addition to one-on-one meetings, the Company holds earnings conferences twice-yearly for institutional investors and securities analysts to announce the second quarter and the fiscal year results, as well as small meetings led by the Company President. We also hold earnings conferences with institutional investors and securities analysts at the end of the first and third quarter.
- We work to promote dialogue with individual investors and to inform them about the group's businesses. In FYE March 2022, we held online briefings for individual investors.
- We actively promote ESG dialogue with investors. We hold one-on-one meetings with institutional investors and conferences for institutional investors and securities analysts.
- We provide information via our website for shareholders and investors. We publish our investment securities reports, earnings flash reports (Japanese/English), integrated reports (Japanese/English), and earnings conference materials (Japanese/English) on this website. We also stream video of our earnings conferences (Japanese/English) and publish a Q&A summary (Japanese/English) to further communication.

- Comments and feedback gained through investor relations activities are summarized into reports. The director in charge of IR reports to the Executive Committee and the Board of Directors regularly.
- Due care is given to insider information during communication. Communication is conducted in accordance with the Rules Concerning the Prevention of Insider Trading, which outlines the handling of important information. We also establish a quiet period.

- Principle 5.2 Creation and Publication of Corporate Strategies and Business Plans

Our corporate strategies and business plans are as follows. Furthermore, we have posted medium- and long-term corporate strategy “Meiji Group 2026 Vision” and “2023 Medium-Term Business Plan” on our website.

<https://www.meiji.com/global/investors/business-plans/>

<https://www.meiji.com/global/investors/business-plans/2023-medium-term-business-plan.html>

- Business Portfolio Management

The Group uses business-specific ROIC, which we adopted at the start of our 2023 Medium-Term Business Plan, to promote the creation of a highly profitable and productive business structure. Focusing on the key theme of “selection and concentration”, we reinforce business portfolio management and conduct continuous monitoring through our Board of Directors.

Also, we work to increase our corporate value by promoting ROIC within the Group as a common performance indicator. To improve ROIC, we engage in capital control and pursue operating profit margin improvements for each business. These initiatives help us build an optimal business portfolio, including maintaining a structure that promotes growth. We consider ESG risks as well as financial risks when evaluating or reviewing our business portfolio. This enables us to reflect external environmental factors in our judgment criteria applied to business evaluations and investment decisions.

- Intellectual Property Strategy

Our Group recognizes the importance of intellectual property as a management resource. We view intellectual property activities as a critical part of the support structure for our business activities. We develop and execute intellectual property strategy to improve our medium- and long-term corporate value while respecting the intellectual property rights of third parties.

We strategically secure patents for our R&D results. This ensures our ability to protect our core technology, maintain technological superiority, and support future business development and new business creation.

In addition to patents, we also appropriately manage other knowhow as valuable resources that contribute to our competitiveness. This includes information such as manufacturing methods and hygiene management that is not protected by patents.

We also treat the Meiji brand and our various trademarks as valuable resources that support our business. We proactively engage in trademark activities to further elevate the trust and expectations with which consumers have come to associate our products and services.

- Capital Policy

We pursue sustainable growth by aggressively applying capital gained through business activities towards growth investments and R&D. To promote overall Group capital efficiency, our approach to growth investments is to maintain financial discipline and reduce cross-shareholding and other non-business-related assets.

We recognize returns to shareholders as an important management issue. We will raise our consolidated dividend payout ratio to 40% by FYE March 2024. As necessary, we will also evaluate the acquisition of treasury stock based on a comprehensive evaluation of our optimal capital structure and surplus capital.

Our basic policy on capital procurement is to use debt to procure capital. We evaluate capital demands and interest environments to apply a primarily commitment to reducing capital costs by using a diverse range of procurement methods. To address credit risks associated with increased debt, we set a maximum D/E ratio of 0.3 times and maintain a high credit rating that is not impacted by conditions on financing markets.

To prevent any unjust impedance on the rights of shareholders, any capital strategy that will result in a major shift in controlling interests or a large-scale dilution is subject to a vote by the Board of Directors following due evaluation of necessity and feasibility. We also provide explanations to shareholders and investors in accordance with timely disclosure rules.

Disclosure of Individual Directors' Remuneration	Selected Directors
--	--------------------

Supplementary Explanation

The Company has established officer categories. For each of these categories, we disclose the remuneration amount, the total amount of monetary/stock compensation, and the number of officers in the category. The Company also discloses the remuneration amounts for individual directors whose remuneration total is 100 million yen or more. The remuneration amounts for each officer category as of FYE March 2022, are as follows.

Also, we revised the directors' compensation system in July 2021, and the compensation based on this system will be paid after July 2022, reflecting the compensation for the FYE March 2022. Therefore, the directors' compensation for FYE March 2022 is determined and paid based on the former directors' compensation system.

Officer category	Remuneration amount	Monetary compensation				Stock compensation	
		Base compensation		Performance-linked compensation		Total	Number of officers
		Total	Number of officers	Total	Number of officers

Policy on Determining Remuneration Amounts and Calculation Methods	Established
--	-------------

[Overview of the directors' compensation system in FYE March 2021]

Compensation for directors other than outside directors

Compensation comprises the following:

1) Base compensation

A fixed amount that reflects the director's status and responsibilities

2) Performance-linked compensation

An amount that varies according to the company and the director's performance in the preceding fiscal year, and thus provides an incentive over the short term.

3) Stock-based compensation

Compensation that is linked with the Company's stock performance, and thus provides an incentive over the medium- to long-term.

Base compensation and performance-linked compensation are paid in cash. Stock-based compensation takes the form of transfer-restricted stocks. Also, The ratio between the fixed component (base compensation) and variable component (performance-linked compensation + stock-based compensation) of the total remuneration is approximately 60:40. We apply a higher rate of variable compensation as the rank and position of the executive increases. We set ratios of 54% to 59% for fixed compensation and 41% to 46% for variable compensation.

For outside directors and Audit & Supervisory Board members, the Company pays fixed compensation only; no incentive remuneration is paid.

In setting the formula for calculating compensation, we reference data from external research companies on compensation levels at major Japanese companies as well as major manufacturing companies that are of similar business scope and operations as our Company. This ensures a compensation structure that enables the hiring of elite internal and external personnel, provide motivation, and promotes retention.

The metrics of company performance are consolidated net sales and consolidated operating income targets, which represent milestones on the path to achieving the Meiji Group 2026 Vision.

Performance-linked compensation reflects how well the Company met its targets for these two metrics:

1. How well it performed in these metrics compared to the previous year, and 2. How well the relevant director performed. The more higher-ranked a director is, the more the company performance metrics count toward performance-linked compensation relative to the director's performance. The performance-linked compensation for the CEO, President and Representative Director is based entirely on the two metrics.

The following table shows the calculations for the performance-linked compensation paid in FYE March 2022.

	Consolidated net sales	Consolidated operating profit
Result (FYE March 2021)	¥1,191,765 million	¥106,061 million
Target (FYE March 2021)	¥1,287,300 million	¥115,500 million
Previous year's result (FYE March 2020)	¥1,252,706 million	¥102,710 million

Determination of remuneration

The Board of Directors determines the structure for director compensation, the results for company and individual performance, and the amounts of calculated compensation, after hearing the opinion of the Compensation Committee on these matters. The Compensation Committee has the majority of whom are outside directors independent of the Company.

Remuneration for directors and corporate auditors for the most recent fiscal year was discussed at the Compensation Committee meeting held on June 4, 2021, where deliberations were held on individual compensation amounts based on the results of performance assessments for the company and individuals as prescribed by the compensation system.

As it is most appropriate for the CEO, President and Representative Director, who oversees all business execution, to conduct individual performance evaluations for directors (excluding outside directors), at the Board of Directors meeting held on June 29, 2021, a resolution was passed outlining that the CEO, President and Representative Director shall decide on compensation amounts for individual directors based on the results of deliberations by the Compensation Committee.

The amount of compensation for Audit & Supervisory Board members is determined through negotiation with the members concerned, and the amount will be within the limit resolved by the General Meeting of Shareholders.

[Overview of the directors' compensation system from FYE March 2022]

A. Revisions to directors' compensation system

In line with the start of our 2023 Medium-Term Business Plan, which covers the three-year period between FYE March 2022 and FYE March 2024, we revised our directors' compensation system to further align the system with its intended objectives by linking compensation to the core benchmarks outlined in the 2023 Medium-Term Business Plan.

B. Compensation composition ratio

To increase incentives for improved performance and promote the sharing of interests with our shareholders and stakeholders, we set compensation composition ratio that is approximately a 50-50 mix of fixed compensation (base compensation) and variable compensation (performance-linked compensation and stock-based compensation).

We apply a higher rate of variable compensation as the rank and position of the executive increases. We set ratios of 45% to 50% for fixed compensation and 50% to 55% for variable compensation.

C. Details of performance-linked compensation

To achieve growth in operating profit by improving capital productivity as outlined in our 2023 Medium-Term Business Plan, we set consolidated operating profit and ROIC as performance indicators for our Company. We are also adopting new medium- and long-term target evaluations to further promote the achievement of medium- and long-term targets. Outside directors are not eligible for performance-linked compensation.

Payment amount calculation method

We set standard amounts for each evaluation benchmark for company performance and individual performance. We then calculate performance-linked compensation by multiplying each amount by a coefficient calculated based on the level of achievement for each evaluation benchmark. The total of the amounts calculated for each performance-linked compensation category represents the total amount of performance-linked compensation.

[Benchmarks for company performance]

1) Short-term performance-linked compensation

- Consolidated operating profit: Achievement of fiscal year target represents 100%. The coefficient fluctuates between 0% and 200% based on the rate of achievement (50% to 150%) for the fiscal year target.
- ROIC: Achievement of fiscal year target represents 100%. The coefficient fluctuates between 0% and 200% based on the rate of achievement (50% to 150%) for the fiscal year target. Regardless of the level of achievement for the fiscal year target, the coefficient is reduced by half if earnings are less than capital costs.

2) Medium- and long- term performance-linked compensation

- Consolidated operating profit: Achievement of the medium- and long-term target, which is separate from the fiscal year target, represents 100%. The coefficient fluctuates between 0% and 200% based on the rate of achievement for the medium- and long-term target.

[Benchmarks for individual performance]

- The coefficient that fluctuates between 0% and 200% based on a seven-tier evaluation of individual performance, which is determined through comprehensive assessment by the CEO, President and Representative Director.
- There is no individual performance evaluation for the CEO, President and Representative Director and COO, directors.

D. Details of stock-based compensation

The previous system included stock-based compensation to provide incentives for improving Group corporate value and promoting shared interests with shareholders and all stakeholders. To provide further motivation towards achieving these goals, the monetary amount for rights to financial compensation paid by the Company to allocate restricted stock fluctuates annually based on Meiji

ROESG® from the previous fiscal year. The transfer restriction period and other conditions have not changed from the directors' compensation system in place through FYE March 2021.

Payment amount calculation method

We set the Meiji ROESG®, which is calculated based on ROE figures and the results of ESG initiatives, as a performance indicator. The payment amount is calculated by multiplying the base amount by a coefficient calculated as detailed below.

- We calculate the Meiji ROESG®, which combines ROE and ESG indicators (external evaluations). The coefficient is set to 100% for 13pts. Limited to FYE March 2024, the final year of the 2023 Medium-Term Business Plan, we will add 1pt to the Meiji ROESG® for each item achieved for ESG targets (Unique to Meiji).
- The minimum is set as 9pts, which is the actual figure for the Meiji ROESG®, and the maximum is 17pts. the coefficient fluctuates between 50% and 150% depending on the actual ROESG® figure.
- No stock-based compensation will be allocated if the Meiji ROESG® is lower than 5pts for two consecutive years.

*ROESG is a registered trademark for a management indicator developed by Kunio Ito, a professor at Hitotsubashi University.

Also, we have posted the details of directors' compensation and calculation method on our website.

[Supporting System for Outside Directors and/or Audit & Supervisory Board Members]

We ensure a system that smoothly provide internal information requested by outside officers from directors with executive duties, executive officers and employees. We provide the information directly or through the department in charge.

Independent outside directors communicate through the Corporate Development Department, which provides explanations on Board of Directors' meeting agenda as well as relevant information provision.

Full-time Audit & Supervisory Board members serve as the contact point for outside Audit & Supervisory Board Members to provide various communications and information, and dedicated staff of the Audit & Supervisory Board members assists.

Outside officers are taken on inspection tours of plants and research laboratories to further their understanding of these matters.

2. Matters on Functions of Business Execution, Auditing, Oversight, Nomination and Remuneration Decisions (Overview of Current Corporate Governance System)

1. Business Execution

The Board of Directors holds a meeting once a month, in principle, and resolves matters of material importance, including the Group's basic strategic approach, large-scale investments, and other matters that are set forth in laws, the Company's Articles of Incorporation, or the Rules of the Board of Directors. The Group Company Administration Regulations and Duties Regulations clearly define the matters that are related to the execution of business undertakings and operations pursuant to the policies determined by the Board of Directors. Of these, the matters that have material importance are reviewed by the Executive Committee twice a month in principle.

Also, we have introduced Chief Officer system to strengthen group management. Serving in the highest positions of responsibility within the Group, Chief Officers work in line with basic management policies outlined by the Board of Directors to supervise and oversee Group business or functions.

Furthermore, meetings of the Group Strategy Committee, which is comprised of members designated by Chief Officers, are held once per month. The Committee determines the direction of critical matters such as the Group's general vision, business plan, business policy, and the distribution of management resources.

2. Auditing and Oversight

Audit & Supervisory Board audits are conducted by Audit & Supervisory Board members. Also, we have established an Audit Department with internal audit staffs to conduct business audits. For overseas Group companies, in addition to business audits, we also conduct audits specifically designed to reduce management risks, including fraud prevention. Pursuant to the Audit & Supervisory Board Guidelines, the Audit & Supervisory Board meets once a month, in principle. Internal audits are conducted by the Audit Department, which is composed of dedicated internal audit staff. Accounting audits are conducted by the accounting auditor. The Company has designated Ernst & Young ShinNihon LLC as its accounting auditor.

To better enable the Audit & Supervisory Board members to fulfill their function of overseeing business execution, the Company has put in place a system that facilitates effective audits. For example, dedicated staffs are on hand to assist the process of Audit & Supervisory Board audits and the Audit & Supervisory Board members attend important meetings such as those of the Board of Directors and Executive Committee. In addition, Audit & Supervisory Board members are given regular reports and forwarded important documents.

3. Nomination and Remuneration Decisions

We have set up Nomination Committee to deliberate on proposals for the nomination or removal of directors and Audit & Supervisory Board members, and nomination or removal of executive officers, including the president. The Committee also deliberates and advises on matters such as succession plans.

We also have set up Compensation Committee to deliberate on policies regarding the determination of compensation for directors and executive officers, the amount of compensation, the level of compensation, etc.

* Details of the roles of Board of Directors, Audit & Supervisory Board and Committee etc. is described in “7. Board of Directors, Audit & Supervisory Board and Committee etc.” of Corporate Governance Policy.

3. Reasons for Adoption of Current Corporate Governance System

With the aim of achieving sustainable growth and improving corporate value of the medium- to long-term, the Company has established a basic approach to management of the Group wherein operating companies that engage in “Food and Health” manage businesses autonomously while collaborating with each other under the control of the Company (which is the Group’s holding company). Under this approach, the main role of Meiji Holdings Co., Ltd., is to advance Group-wide management strategies, create an optimal operating structure, and oversee the business management of operating companies. Responsibility for operational execution is delegated to operating companies appropriately. Within the Group, oversight and execution of business management are separated. Accordingly, the Group has established and operates a corporate governance system including a Board of Directors. Meiji Holdings is a company with audit & supervisory board members. The Board of Directors' oversight and audit & supervisory board members' auditing heighten the objectivity and transparency of business management.

4. Matters Related to the Internal Control System

1. Basic Views on Internal Control System and the Progress of System Development

<p>1. Basic Views</p> <p>The Company and the Group companies provide products and services to a large number of customers through our food and pharmaceuticals business operations. The Meiji Group has established an internal control system befitting the Group and the Group companies that is based on mutual collaboration and multifaceted checking functions to ensure directors, executive officers, and other employees comply with the Food Sanitation Act, the Law for Ensuring Quality, Efficacy, and Safety of Drugs and Medical Devices, and other statutory laws and regulations and the Articles of Incorporation, thereby ensuring fair and sound business activities firmly rooted in compliance.</p>
--

A basic policy of the Company and the group companies is to preempt damage to shareholders and other stakeholders and endeavor to improve sustainable corporate value by earning the trust of our customers and maximizing shareholder value.

2. Progress of System Development

- 1) Systems for ensuring compliance with laws and regulations and the Articles of Incorporation in the execution of duties by directors, executive officers, and employees

To ensure thorough corporate governance, the Group has adopted business management structures and clearly define the responsibilities for the Company as the holding company overseeing business management among the Group, and the responsibilities for the Group companies as the organizations executing the business of the Group. The organizational structure that the Company has adopted for this purpose is that of a “company with audit & supervisory board members” (*kansayaku-kai secchi kaisha*), while the structure adopted by the Group companies is that of a “company with auditors” (*kansayaku secchi kaisha*). The Company and the Group companies have constructed and operate effective compliance systems. In the case of the Company, these systems include the Compliance Regulations and related regulations, which incorporate the Group’s corporate philosophy. In the case of the Group companies, they include related regulations and the related committees.

- 2) Systems for storing and managing information related to the execution of duties by director
The Company has developed the Regulations for Handling Documents and Regulations for Managing Confidential Information, and constructed systems for storing and managing important documents related to the business management or business execution by the Company or the Group companies.

- 3) Procedures and other systems related to managing the risk of loss
To address risks to the smooth operation of business at an organizational and systematic level, the Company and the Group companies have developed rules for managing each risk, and constructed risk management systems in accordance with these rules.
The Company and the Group companies ensure unerring risk management by establishing risk-related committees that manage risk at an organizational and systematic level, and they have also developed systems for minimizing the risk of damages during emergency situations.

- 4) Systems for ensuring that directors and executive officers conduct their duties efficiently
The Company and the Group companies’ boards of directors determine the duties of directors and executive officers. Directors and executive officers discharge these duties appropriately in accordance with the Duties Regulations, which defines the segregation of duties and authorities, and other relevant regulations.
The Company integrates and coordinates the business operations of the Company and the Group companies by having its Executive Committee review important matters pertaining to the Group as a whole. The Group companies help accelerate decision-making and streamline the execution

of duties by making it a principle to have their executive committees conduct a full preliminary review of important matters pertaining to business management.

5) Systems for ensuring the appropriate execution of duties in the corporate group consisting of the Company and Group companies

The Company and the Group companies share the same ethos concerning internal control systems and have developed systems for ensuring appropriate execution of duties and reliable financial reporting.

The Group Company Administration Regulations and related regulations define the roles, authorities, and responsibilities among the Group. Duties are executed appropriately so as to contribute to the rationalization and optimization of business processes across the Group.

Specifically, each Group company has constructed their own systems under 1, 3, and 5 above, and the Company receives reports as appropriate on matters pertaining to duties in Group companies in accordance with the Group Company Administration Regulations.

6) Systems for ensuring reliability in financial reporting

To ensure reliability in financial reporting, the Company and the group companies have constructed internal control systems for financial reporting; this includes developing and operating systems of evaluation and reporting as appropriate.

7) Matters concerning employees who are assigned to assist in the duties of Audit & Supervisory Board members when Audit & Supervisory Board members requests such assistance; matters concerning the independence of said employees from directors; matters concerning the effectiveness of orders issued by Audit & Supervisory Board members to said employees

After consulting with Audit & Supervisory Board members, the representative director assigns employees to assist in the duties of the Audit & Supervisory Board members. Authority to issue orders to said employees is delegated to the Audit & Supervisory Board members, and any decisions regarding the appointments, reshuffles, and appraisals of said employees require the consent of the Audit & Supervisory Board members. These measures ensure the effectiveness of orders issued by Audit & Supervisory Board members to said employees.

8) Systems under which directors, executive officers, and employees report to audit & supervisory board members; systems under which directors, audit & supervisory board members, executive officers, employees, or persons who receive reports from said persons report to the Company's Audit & Supervisory Board members; other systems concerning reporting to Audit & Supervisory Board members

In the case of the Company, directors, executive officers, and employees relay business management decisions and the status of the execution of business to the Audit & Supervisory Board members via the Board of Directors, the Executive Committee, and major internal meetings, and also by issuing regular reports and forwarding important documents. In the case of the Group companies, directors, audit & supervisory board members (or the equivalent thereof), executive officers, employees, or persons who receive reports from said persons relay the above

matters via meetings with the Company's Audit & Supervisory Board members and by issuing reports and disclosing important documents as necessary.

The Company and the Group companies comply unerringly with any request from an Audit & Supervisory Board member to report on the state of their business or to cooperate in an inspection of their business performance or financial status.

- 9) Systems for ensuring that persons who make reports mentioned in 8 above do not suffer any disadvantage by reason of such reporting

The Company and the Group companies have established rules and regulations on whistleblowing prohibiting the disadvantageous treatment of whistleblowers by reason of their whistleblowing. In accordance with these rules and regulations, the Company has developed systems for ensuring that persons who make reports mentioned in 8 above do not suffer any disadvantage by reason of such reporting.

- 10) Matters concerning the procedure for paying or reimbursing costs arising from the performance of Audit & Supervisory Board members' duties, or any other policy regarding the processing of costs or liabilities arising from the performance of such duties

The Company appropriates a certain amount of funds each fiscal year to cover the costs and liabilities incurred in connection with Audit & Supervisory Board members' execution of duties. If an Audit & Supervisory Board member, pursuant to the provisions of Article 388 of the Companies Act, requests payment in advance for expenses associated with their duties, the Board of Directors will review the matter and the Company will then promptly pay the expenses, except in cases where it deems that the expenses or liabilities related to such request is not necessary for the execution of the duties of the member concerned.

- 11) Systems for ensuring that the Company's Audit & Supervisory Board members conduct audits effectively

The representative director holds regularly meetings to exchange opinions with Audit & Supervisory Board members.

The representative directors and directors of the Company and the group companies understand the importance and usefulness of Audit & Supervisory Board audits, and they actively cooperate with Audit & Supervisory Board members during their audits.

- 12) Structure for Internal Audit Department reporting to the Board of Directors and Audit & Supervisory Board

The Internal Audit Department serves as a structure for making regular reports to the Board of Directors and the Audit & Supervisory Board concerning the results of internal audits conducted within the Group.

2. Basic Views on Eliminating Anti-Social Forces

In accordance with the Corporate Behavior Charter and the Compliance Regulations, the Company and the Group companies refrain from engaging in any way whatsoever with crime syndicates that threaten public order and safety. In the case where a crime syndicate employs intimidation or otherwise poses a threat, the Company has developed a system for responding swiftly in close collaboration with public bodies such as the police and with attorneys.
