1. Qualitative Information

(1) Explanation Concerning Operating Results

(Millions of yen)

First Nine Months ended	Net Sales	Operating Income	Ordinary Income	Net Income attributable to shareholders of parent company	Net Income per Share (Yen)
December 31, 2015	914,362	59,295	62,420	51,205	347.79

% of YoY Change	5.2	38.1	38.7	73.2	

During the first nine months of FYE March 2016 (nine-month period ended December 31, 2015), the Japanese economy transitioned towards a mild recovery thanks to improved corporate earnings and employment. Despite expectations towards improved consumer spending and measures to beat deflation, downside risks for the overseas economy may impact on the domestic economy. Accordingly, the future of the Japanese economy remains unclear.

Amid such conditions, the Meiji Group entered the inaugural year of STEP UP 17, the Group's Medium-Term Business Plan. Based on our core policy of accelerating growth and achieving further improvement in profitability, we launched the initiatives of our growth strategy aimed at increasing corporate value. These initiatives include strengthening priority businesses and taking on the challenge of future growth, improving profitability to withstand harsh economic environments, pursuing global expansion, and evolving our management system.

In the food segment, we conducted selection and concentration to expand sales of mainstay products and review unprofitable businesses in order to further strengthen priority businesses. In response to increasing raw material procurement costs and energy costs, we reduced costs and cut expenses. We increased prices for mainstay products.

In the pharmaceuticals segment, government policies to promote the generic drugs use are driving reductions in medical care spending. We responded by conducting marketing activities promoting our core domain, antibacterial drugs and CNS agents, and generic drugs. We identified cost competitiveness as a key issue and initiated production and procurement streamlining on a global level.

These factors resulted in net sales of 914,362 million yen (up 5.2%, year on year), operating income of 59,295 million yen (up 38.1%, year on year), ordinary income of 62,420 million yen (up 38.7%, year on year), and net income attributable to shareholders parent company of 51,205 million yen (up 73.2%, year on year) during the first nine months of FYE March 2016.

Below is an overview by segment.

(Millions of yen)

	Reporting Segments			Adjustments	Amount Presented in Statements of Income
	Food	Pharmaceuticals	Total		
Net Sales	795,911	120,142	916,053	-1,691	914,362
Operating Income	50,914	8,877	59,792	-496	59,295

(i) Food segment

(Millions of yen)

	First nine months of FYE March 2015 (from Apr. 1, 2014 to Dec.31, 2014)	First nine months of FYE March 2016 (from Apr. 1, 2015 to Dec.31, 2015)	% of YoY Change
Net Sales	770,943	795,911	3.2
Operating Income	32,319	50,914	57.5

Net sales increased year on year driven by a favorable consumption environment. Net sales of the fresh and fermented dairy business, confectionery business, and nutritional business increased year on year. On the other hand, revenues for the processed food business declined due to the implementation of structural reforms aimed at improving profitability.

Operating income increased significantly year on year. Increases in raw material procurement costs were compensated for with price hikes. In each business, efforts such as product mix improvements, production and distribution optimization, and other structural reforms were implemented along with the ones to improve the efficiency of cost expenditures.

Below is an overview of each of this segment's main businesses.

- Fresh and Fermented Dairy business (Yogurt, drinking milk, beverages, etc.)
 - Net sales of functional yogurt increased significantly year on year. Net sales of *Meiji Probio Yogurt R-1* increased significantly year on year. The new flavors of *Meiji Probio Yogurt R-1* released in October and November of 2015 contributed to sales. *Meiji Probio Yogurt PA-3*, released in April 2015, recorded net sales that outperformed initial sales targets.
 - Net sales of *Meiji Bulgaria Yogurt* increased year on year. Net sales of our mainstay plain yogurt increased year on year thanks to increased awareness of the health value of yogurt and the benefits of promotional activities contributed. Drinkable yogurt products also continued their strong growth.
 - Net sales of drinking milk increased year on year. The entire lineup for our mainstay product *Meiji Oishii Gyunyu* increased year on year. This was the result of continuous efforts to promote the product as not only for drinking, but also an ingredient for cooking.
- Processed Food business (Cheese, butter and margarine, cream, ice cream, frozen food, etc.)
 - Net sales of cheese increased year on year. Natural cheese increased significantly year on year thanks to the strong sales of camembert cheese. Processed cheese increased year on year due to favorable sales of sliced cheese.
 - Net sales of margarine decreased year on year due to the market decline.
 - Net sales of ice cream increased year on year. Net sales of our mainstay products *Meiji Essel Super Cup* series were favorable and net sales of the *Meiji Gold Line* series increased year on year.
- Confectionery business (Chocolate, gummy, chewing gum, etc.)
 - Net sales of chocolate increased year on year. Net sales of BOX chocolate and the *Meiji Chocolate Kouka* series increased significantly year on year. Increased interest in cocoa polyphenols and the expansion of premium-priced products continued to drive the market.
 - Net sales of gummy products significantly increased year on year. Our mainstay brand *Kaju Gummy* and other brands grew significantly.
 - Net sales of gum decreased year on year due to the declining market.
- Nutritional business (Sport nutrition, infant formula, enteral formula, beauty supplement, OTC drugs, etc.)
 - Net sales of sports nutritional increased significantly year on year. Net sales of *SAVAS* increased significantly year on year. In addition to seeing the benefits of years of promotional activities targeting athletes, increased interest in protein helped increase the number of new purchasers. Net sales of *VAAM* increased significantly year on year due to continued promotional activities and expanded sales routes.
 - Net sales of infant formula increased significantly year on year due to increased inbound demand.
 - Net sales of enteral formula increased significantly year on year. Net sales of enteral formula for commercial market increased significantly year on year. This was due to increased awareness among senior citizens

concerning the importance of nutrition and increased storefront exposure.

- In the beauty supplement, net sales of *Amino Collagen* increased significantly year on year due to increased inbound demand.

■ Other business (Overseas, food stuffs, livestock products, sugar and corn sweeteners, transportation, etc.)

Overseas

- Among exports, net sales increased significantly year on year. Sales of chocolate snacks to Thailand and Hong Kong were favorable. Sales of infant formula for the growing Pakistan market increased significantly year on year.
- Net sales in China increased significantly year on year. In the confectionery business, sales of chocolate for wedding gift and almond and macadamia chocolate both grew. The drinking milk and yogurt business released new products to expand its sales area. The ice cream business launched full-scale production in January 2015.
- Net sales in the U.S.A. increased significantly year on year. Sales of *Hello Panda*, *Chocorooms* (U.S.A. version of the chocolate snack, *Kinoko no Yama*), and other chocolate snacks were favorable.

Others

- Net sales at domestic subsidiaries were largely unchanged from the previous year. The distribution business contributed to sales despite revenues at certain subsidiaries declining due to the impact of a change in the accounting period during the previous fiscal year.

(ii) Pharmaceuticals segment

(Millions of yen)

	First nine months of FYE March 2015 (from Apr. 1, 2014 to Dec.31, 2014)	First nine months of FYE March 2016 (from Apr. 1, 2015 to Dec.31, 2015)	% of YoY Change
Net Sales	99,501	120,142	20.7
Operating Income	10,722	8,877	-17.2

Net sales increased significantly year on year. In the domestic ethical pharmaceuticals business, net sales of brand name drugs increased year on year and net sales of generic drugs increased significantly year on year. Net sales in the agricultural chemicals and veterinary drugs business increased significantly year on year due to a significant increase in revenues from mainstay products. Net sales for overseas business increased significantly year on year. Exports of mainstay products were favorable. Medreich, which became a consolidated subsidiary in the fourth quarter of the previous fiscal year, contributed to sales.

Operating income decreased significantly year on year. This was due to a normalization of income after having recorded one-time revenues from the licensing agreement during the same period of the previous fiscal year.

Below is an overview of each of this segment's main businesses.

■ Ethical Pharmaceuticals

Japan

- Among antibacterial drugs, net sales of *MEIACT* decreased year on year and net sales of *ORAPENEM* increased significantly year on year.
- Net sales of the antidepressant drug *REFLEX* increased significantly year on year. This was due to recovered from declines that followed the temporary spike in demand caused by the consumption tax hike and aggressive promotional activities by medical representatives.
- Net sales of generic drugs increased significantly year on year. Sales of the calcium channel blocker *AMLODIPINE Tablets Meiji* and the antibiotic *SULBACILLIN* grew significantly.

Overseas

- Export business sales increased significantly. Net sales of our mainstay *MEIACT* increased significantly year on year.
- Among overseas subsidiaries, in addition to sales from Medreich, businesses in Indonesia and Thailand increased significantly year on year.

■ Agricultural chemicals and veterinary drugs

- Net sales of agricultural chemicals increased significantly year on year. Sales of our mainstay rice blast preventative *ORYZEMATE* recovered from the adverse effect of the consumption tax rate hike enacted during the previous fiscal year to return to strong levels.
- Net sales of veterinary drugs increased year on year. Net sales of both livestock drugs and drugs for companion animals increased significantly year on year. Net sales of marine chemicals decreased year on year.

(2) Qualitative Information Concerning Financial Position

[Assets]

For the first nine months of FYE March 2016, total assets were 899,814 million yen, which was a 22,447 million yen increase compared to the end of the previous consolidated fiscal year. Although buildings and structures (net) decreased by 2,920 million yen, construction in progress decreased by 3,633 million yen, goodwill decreased by 1,716 million yen, and other investments and other assets decreased by 14,344 million yen, notes and account receivables increased by 33,844 million yen, machinery and equipment (net) increased by 4,632 million yen, and investment securities increased by 6,315 million yen.

[Liabilities]

For the first nine months of FYE March 2016, total liabilities were 474,236 million yen, which was a 22,828 million yen decrease compared to the end of the previous consolidated fiscal year. Although notes and accounts payable increased by 19,514 million yen, current portion of bonds increased by 20,000 million yen, income taxes payable increased by 736 million yen, allowance for sales rebates increased by 475 million yen, other current liabilities increased by 5,621 million yen, long-term loans payable increased by 504 million yen, and retirement benefit liabilities increased by 1,314 million yen, short-term loans payable decreased by 8,460 million yen, commercial paper decreased by 23,000 million yen, accrued bonuses for employees decreased by 4,863 million yen, and bonds decreased by 35,000 million yen.

[Net Assets]

For the first nine months of FYE March 2016, total net assets were 425,578 million yen, which was a 45,275 million yen increase compared to the end of the previous consolidated fiscal year. Although foreign currency translation adjustments decreased by 2,605 million yen, retained earnings increased by 43,292 million yen, net unrealized holding gains or losses on securities increased by 2,972 million yen, and adjusted cumulative of retirement benefits increased by 1,889 million yen.

Our equity ratio increased from 42.2% as of the end of the previous consolidated accounting period to 46.2%.

(3) Explanation Concerning Forecasts for Consolidated Earnings

There are no changes to the consolidated earnings forecast in the “Consolidate Financial Results for the Second Quarter of Fiscal Year Ending March 31, 2016” released on November 10, 2015.

2. Summary Information (Notes)

(1) Transfer of Significant Subsidiaries during the Current Fiscal Period under Review

Liquidation procedures for Meiji Seika (Shanghai) Co., Ltd., the former subsidiary of Meiji Co., Ltd., have been completed and thus the company has been eliminated from the scope of consolidation as of the first six months of FYE March 2016.

(2) Changes in scope of consolidation or changes in the scope of application of the equity method

(i) Significant changes in the scope of consolidation

With the establishment of Medreich New Zealand Limited, the company was included in the scope of consolidation as of the consolidated first three months of FYE March 2016.

Due to the additional acquisition of Tochigi Meiji Milk Products Co., Ltd. stock, the company was included in the scope of consolidation as of the consolidated first nine months for fiscal year ending March 31, 2016.

(ii) Significant changes in the scope of application of the equity method

Tochigi Meiji Milk Products Co., Ltd. has been included in the scope of application of the equity method as of the consolidated first six months of FYE March 2016 due to the increase in the importance of the company.

Because Tochigi Meiji Milk Products Co., Ltd. was added to the scope of consolidation as of the consolidated first nine months for fiscal year ending March 31, 2016, the company was removed from the scope of application for the equity method.

Due to the acquisition of DMB Limited stock, the company was added to the scope of application for the equity method.

(3) Adoption of Special Accounting Methods for Preparation of Quarterly Consolidated Financial Statements

Tax expenses are calculated by rationally estimating the effective tax rate after application of tax effect accounting to income before income taxes for the consolidated fiscal year, which includes the current quarter under review, then multiplying income before income taxes by the estimated effective tax rate.

Income taxes-deferred are shown included in income taxes.

(4) Changes in Accounting Policy, Changes in Accounting Estimates, and Retrospective Restatements

Changes in Accounting Policy

(Application of accounting standards related to business combination)

Beginning from the first three months of the current consolidated fiscal year, the Group adopted the provisions of the Accounting Standard for Business Combination (ASBJ Statement No. 21, September 13, 2013), the Accounting Standard for Consolidated Financial Statements (ASBJ Statement No. 22, September 13, 2013), and the Accounting Standard for Business Divestitures (ASBJ Statement No. 7, September 13, 2013). As a result of this change in accounting policy, differences resulting from the changes in Group holdings in subsidiaries remaining under Group control are recorded as capital surplus and expenses related to acquisition are recorded as expenses for the consolidated accounting period in which they were incurred. The accounting standard for business combination occurring after the beginning of the first three months of the current consolidated fiscal year was changed to a method that reflects a review of the distribution of acquisition costs based on the finalization of provisional accounting treatments onto the consolidated quarterly financial statements for the consolidated quarterly accounting period in which the business combination date occurs. Furthermore, we changed how net income is represented and changed from an indication of minority interests to an indication of non-controlling shareholder interests. To reflect these changes, the consolidated financial statements for the three months of the previous consolidated fiscal year and the previous consolidated fiscal year were modified.

The application of the Accounting Standard for Business Combination is subject to transitional treatment as outlined in Accounting Standard for Business Combination Paragraph 58-2 (4), Accounting Standard for Consolidated Financial Statements Paragraph 44-5 (4), and Accounting Standard for Business Divestitures Paragraph 57-4 (4). As such, the application of these standards will be implemented moving forward beginning from the start of the first three months of the current consolidated fiscal year.

As a result, capital surplus as of the end of the consolidated first nine months of FYE March 2016 decreased by 348 million yen. This impact on gains and losses for the first nine months of FYE March 2016 is minor.

Changes in Accounting Policies to be distinguished from Changes in Accounting Estimates

(Change in depreciation method for depreciable assets)

Previously, the declining-balance method of accounting was used to calculate the depreciation of tangible fixed assets belonging to Meiji Seika Pharma, which operates in the ethical pharmaceuticals segment, and its domestic subsidiaries. However, this was changed to the straight-line method beginning with the first three months of the current consolidated fiscal year.

In STEP UP 2017, our Medium-Term Business Plan launched this fiscal year, the Specialty & Generics strategy outlines the Meiji Seika Pharma Group goal of enhancing our lineup of generic pharmaceuticals in order to further strengthen our business foundation and further increase sales of generic drugs. Domestic production facilities originally operated with a focus on Meiji original brand name drugs, but amid a trend towards reduced production of brand name drugs, the Group is planning to incorporate major generic drugs as a production resource.

A review of operating status at domestic production facilities indicated that more long-term stable operation could be expected. As such, it was determined that leveled depreciation via the straight-line method was the cost distribution method that appropriately reflected the operating status of these assets.

As a result of this change, operating income, ordinary income, and income before taxes and minority interests for the first nine months of the current consolidated fiscal year each increased by 610 million yen compared to the previous method.

9. Reference

1. Partial reclassification of the business divisions within the Food segment

The reclassifications occurred due to the re-organization at Meiji Co., Ltd., which was implemented in April 2015, and they are effective from the current fiscal year ending March 31, 2016. Along with these changes, figures to be presented in business plans and actual operating results for the current fiscal period and after are on the basis of the new classification. Also, in the disclosure materials for the current fiscal year, actual operating results for the fiscal year ended March 31, 2014 and 2015 are presented by applying the new classification. Please note that there were no changes in the pharmaceuticals segment.
